THURSDAY UPDATE | CANADIAN PRODUCT SPOTLIGHT

KEKO: Canadian design for better everyday tablet ergonomics.

The KEKO Universal Tablet Stand takes a familiar everyday device and makes it easier to use. Designed in Quebec, its lightweight folding X-shape supports tablets, e-readers and large phones in four useful positions - at home, at work or on the road.

THE PRODUCT IN USE

QUEBEC	4	4-13"	77
CANADIAN-DESIGNED	WORKING POSITIONS	UNIVERSAL FIT	AVAILABLE IN LAVAL
A locally developed product with a distinctive Canadian story.	Two viewing angles in landscape or portrait orientation.	Supports tablets, e-readers and large phones, even in cases.	Black tablet stands are currently stocked by Randmar.

A simple answer to an everyday problem

Tablets are useful for recipes, reading, writing, video calls, streaming and presentations, but laying one flat on a desk or counter creates awkward viewing angles. KEKO raises and positions the screen without adding a bulky mount, permanent attachment or complicated adjustment system.

Designed around the way people actually use tablets

- **Four positions:** two tilt angles in both landscape and portrait orientation support viewing, reading and writing.
- **Universal fit:** works with tablets and e-readers from 4 to 13 inches, including devices in thicker protective cases.
- **Travel-ready:** the approximately 54-gram stand folds flat and stays closed with internal magnets.
- **Stable and protective:** the locking X-shaped base and non-slip rubber contact points help prevent movement and scratches.
- **Built to last:** durable polycarbonate is made for repeated folding, unfolding and daily use.

One product, many customer stories

For remote workers, it creates a better video-call and second-screen setup. In classrooms and libraries, it supports hands-free learning and reading. In kitchens, it keeps recipes visible while freeing both hands. For travellers, it slips into a bag and sets up quickly on a tray table or hotel desk. It is also an easy add-on for customers purchasing a tablet, case or other mobile accessory.

PRODUCT	KEKO Universal Tablet Stand - Black | MPN: KT-B-U | UPC: 627843829027
DESIGN	Quebec-designed, patented folding mechanism; featured on Dans l'oeil du dragon.

Why KEKO belongs in Randmar's portfolio

KEKO combines a clear customer benefit with a strong Canadian product story. The stand is easy to demonstrate, easy for resellers to explain and useful across consumer, education and business environments. Its durability and universal compatibility also give it a longer, broader life than many device-specific accessories.

RANDMAR ANGLE	The best accessories solve a small frustration so well that customers quickly wonder how they worked without them. KEKO does exactly that - with Canadian design, broad compatibility, practical ergonomics and inventory ready for resellers.
